

I support media diversity

I am writing regarding the FCC review of media consolidation rules. I have only heard about this issue through public radio because there's already so much consolidation that the public is not being adequately informed.

I didn't even hear about the FCC meeting on this topic in my own city! I would have been there to voice my opinion or protest, but I never even heard it was happening!

Please take this into account when you consider whether to allow the press to be taken even further out of the hands of the people.

Thank you,

Chris Maxwell
